

## **Anergy Team Building - Start Your Event with a Bang (laser tag)!**

Written by Administrator

---

Yes, the laser tag guns have finally arrived.

Ladies and Gentlemen, Anergy Fun Engineers is proud to present the latest trend in corporate team building and fun events for adults and children... the one and only source of wargaming without age limit... Anergy Laser Shootout!

Other than using our laser tag equipment for team building programmes, we also offer our services to other events companies who are interested in using these equipment for product launches or as a game stall during a family day event.

For a mere HK\$300\* per gun per hour, you will be able to rent our guns (with 3 staff to conduct short games on your behalf). All you need to do is to book a venue and set up some simple obstacles. Our laser tag war games are highly popular with not only adults but also children. With no actual physical projectiles, there is no age limit and children as young as 5 years old can participate. \*prices subject to changes without notification, please contact us for more details.

We have run numerous family days and camps with our guns and we can assure you that your event will end with a bang (actually, there will be more than one "bang")! Laser Tag guns are the latest craze in Hong Kong and we are certain that it will take Hong Kong by storm. Laser Tag games are extremely popular in countries that paintball (or wargaming) have been common.

This is partly due to the fact that children as young as 5 years old can participate in this harmless shooting game. In many countries, parents are getting the children to play this game not only because it is a good form of exercise. Laser Tag also helps to develop leadership skills, planning, communication, as well as motivational skills.
